### Course Content:

The screenshot shows a Moodle course interface. On the left is a dark sidebar with a logo at the top that says 'African Australian' with a map of Africa. The sidebar menu includes: Home, Courses List, Calender, My Courses (with a dropdown arrow), Project Management (highlighted), and Attendance. The main content area has a top navigation bar with a 'Home' link and a user profile icon. Below this is a 'Dashboard' section. The main heading is 'Project Management'. There are two expandable sections: 'Assignment' and 'Course Content'. Under 'Assignment', there is a link for 'Assignment 1'. Under 'Course Content', there is a section for 'Week1' which contains the text: 'In this week we install nginx for Windows on your own PC (or for Mac OS X) and review Javascript functions, callback functions, dynamic functions, developing a simple web app and an elegant web app.' At the bottom left of the browser window, the URL '127.0.0.1:8000/moodle/assignment/?id=1&courses\_id=1' is visible.
